

Cyber Security

Cyber Security Policy and Procedures

St Mary's School, Echuca is committed to achieving and maintaining cyber resilience through our ability to prepare for, respond to and recover from a cyber security incident. We achieve this through our cyber security risk management strategy and related prevention and mitigation measures.

St Mary's Echuca cyber security risk management strategy is based on the Australian Cyber Security Centre (ACSC) Essential Eight Maturity Model, the National Institute of Standards and Technology (NIST) Cybersecurity Framework and key guidance for organisations in Australia.
